

1) IMAGINE that you are standing in front of a bin on the ground containing two plastic toys. Like these:

2) Now we will give you an other toy (like the plastic torus below) in your hand. You will choose to drop the plastic torus on **ONE** of the toys in the bin.

3) Choose ONE of the two toys to drop the plastic torus on. Choose the combination that you think will make the most **INTERESTING** or **SURPRISING** thing happen!

Do you want to drop this plastic torus on toy 1 or toy 2:
